## Save on Energy – Retrofit Cheque Presentation

Date: May 7, 2018

Customer: District of Muskoka  
Address: 225 Taylor Road, Bracebridge  
Project: Lighting Project  
Photo: Murray Medley, Fire Chief, Town of Bracebridge  
Chris Litschko, CEO, Lakeland Power  
Jeff McWilliam, Chief, Paramedic Services and Emergency Planning, District of Muskoka

### Project Details

The new Paramedic/Fire station at 225 Taylor Road houses the District of Muskoka Paramedic Services and the Bracebridge Fire Department. The building was designed to be energy efficient, including LED lighting inside and out. An application to Lakeland Power for the Save on Energy Retrofit program for the lighting resulted in an incentive of over \$12,000. The project is estimated to save almost 170,000 kWh annually over standard incandescent lighting.

**Eligible Incentive:** \$ 12,392.08 + HST  
**KWh Reduction:** 169,339.66 kWh

### Save on Energy Details – [www.saveonenergy.ca](http://www.saveonenergy.ca)

**Save on Energy** conservation programs are designed to assist homeowners and businesses from the smallest retail stores to the largest industrial complexes to use energy more efficiently. The programs are supported through the Independent Electricity System Operator (IESO) and offered by Lakeland Power Distribution Limited

Save on Energy programs include energy-saving initiatives that cost-effectively reduce energy use in Ontario, while providing customers with a wide range of opportunities and tools to help them better understand and manage their overall energy use. Programs include the Heating and cooling program which provides rebates for energy-efficient furnaces and air conditioners as well as Retrofit programs that provide incentives to businesses to upgrade to more efficient lighting systems and machinery.

Ontario's Conservation First Framework guides Ontario's conservation efforts. As part of the Framework, customers across Ontario will see innovative and cost-effective electricity conservation programs offered to homes, businesses and industries.

## **Lakeland Power Details**

“The Save on Energy programs provide a great opportunity to bring money into the community and help our customers implement projects to reduce their energy use,” said Brian Elliott, Operations Manager of Lakeland Power. “Many projects wouldn’t be implemented without these incentives and we’re pleased to be able to make them available to our customers and municipalities.”

Lakeland Power is committed to serving its customers and deliver Save on Energy Programs “In 2016, the Independent Electricity System Operator (IESO) moved into the Conservation First Framework, with a target of 15.77 Gigawatts (GW) of energy savings for Lakeland Power”, said Chris Litschko, Chief Executive Officer for Lakeland Power. “I am proud to report that we are approaching two-thirds of that savings target at the half-way point of the Framework well ahead of plan. Our customers have received over \$500,000 in cash incentives, on top of the energy savings, and we are pleased to assist them with programs that can reduce their costs.”

New programs are about to be released that will help residents and businesses save money. Visit Lakeland Power.on.ca or email [conservation@lakelandpower.on.ca](mailto:conservation@lakelandpower.on.ca)
