

Save on Energy – Retrofit Cheque Presentation

Date: October 17, 2018
Customer: Town of Bracebridge
Address: 1000 Taylor Court, Bracebridge
Project: Streetlight Upgrades

Project Details

Things are looking brighter. More than 200 streetlights in various locations within Bracebridge have been upgraded to LED. The project was the final phase of the Streetlight Upgrade project that the Town began in 2015. The new LED lighting lasts longer, saves energy, and was eligible for the Save on Energy Retrofit program incentives, offered through Lakeland Power. The 220 LED lights in this project are estimated to save over 100,000 kWh annually.

Eligible Incentive: \$ 17,787.33
KWh Reduction: 104,533 kWh

Save on Energy Details – www.saveonenergy.ca

Save on Energy conservation programs are designed to assist homeowners and businesses from the smallest retail stores to the largest industrial complexes to use energy more efficiently. The programs are supported through the Independent Electricity System Operator (IESO) and offered by Lakeland Power Distribution Limited

Save on Energy programs include energy-saving initiatives that cost-effectively reduce energy use in Ontario, while providing customers with a wide range of opportunities and tools to help them better understand and manage their overall energy use. Programs include the Heating and cooling program which provides rebates for energy-efficient furnaces and air conditioners as well as Retrofit programs that provide incentives to businesses to upgrade to more efficient lighting systems and machinery.

Ontario's Conservation First Framework guides Ontario's conservation efforts. As part of the Framework, customers across Ontario will see innovative and cost-effective electricity conservation programs offered to homes, businesses and industries.

Lakeland Power Details

“The Save on Energy programs provide a great opportunity to bring money into the community and help our customers implement projects to reduce their energy use,” said Brian Elliott, Operations Manager of Lakeland Power. “Many projects wouldn’t be implemented without these incentives and we’re pleased to be able to make them available to our customers and municipalities.”

Lakeland Power is committed to serving its customers and deliver Save on Energy Programs “In 2016, the Independent Electricity System Operator (IESO) moved into the Conservation First Framework, with a target of 15.77 Gigawatts (GW) of energy savings for Lakeland Power”, said Chris Litschko, Chief Executive Officer for Lakeland Power. “I am proud to report that we are approaching two-thirds of that savings target at the half-way point of the Framework well ahead of plan. Our customers have received over \$500,000 in cash incentives, on top of the energy savings, and we are pleased to assist them with programs that can reduce their costs.”

New programs are about to be released that will help residents and businesses save money. Visit Lakeland Power.on.ca or email conservation@lakelandpower.on.ca
