

## Opt-In Form for Electric Vehicle Charging Rate

Please return completed form by email to:

**service@lakelandpower.on.ca**

---

Please fill out this form if you are interested in enrolling in the Electric Vehicle Charging Rate (EVC Rate). The EVC Rate reduces the Retail Transmission Service Rates (RTSRs) for participating electric vehicle (EV) charging stations. The EVC Rate is intended for large charging stations with at least one Direct Current Fast Charger (DCFC) stall. Personal chargers (e.g., attached to the side of a house) are not eligible. Further information about the EVC Rate is available on our website: [www.lakelandpower.on.ca/rates/](http://www.lakelandpower.on.ca/rates/).

Once Lakeland Power receives the completed form and the applicant is deemed compliant with the regulations, the EVC Rate will be applied starting with the next billing period or as soon as possible thereafter. Enrolment will continue as long as the account meets the eligibility requirements outlined below. Customers may opt out of the EVC Rate at any time.

### Customer Account Information

You will need your electricity bill on hand to enter the following information. Enter the information exactly as it appears on your electricity bill. If your information is not entered as it appears on your electricity bill, we may not be able to process your enrolment.	
Name on the Account	
Account Number	
Service Address	
<b>Customer Contact Information</b>	
Contact Name	
Contact Phone	
Contact Email	
<b>Charging Station Information</b>	
Number of DCFC EV Chargers	
Average Capacity of DCFC EV Chargers (in kW)*	
Number of Level 2 (208/240V) EV Chargers	
Average Capacity of Level 2 EV Chargers (in kW)*	

---

\* If the capacity of chargers differs, provide the average (e.g., if 5 chargers have a capacity of 50 kW and 5 chargers have a capacity of 100 kW, the average entered would be 75 kW).

Number of Level 1 (120V) EV Chargers	
Average Capacity of Level 1 EV Chargers (in kW)*	
Total Installed Capacity of Distributed Energy Resources (DERs), if Any (in kW)	
DER Fuel Type (e.g., Solar, Wind, Water, Biofuel/Biogas, Thermal, Energy Storage, Other)	

**Please complete the acknowledgement below:**

- On behalf of the account holder, I would like to enrol the account in the EVC Rate.
- I confirm that the EV charging station associated with the account meets each of the following eligibility criteria:

- a. The charging station contains at least one DCFC stall (sometimes referred to as a Level 3 charger).
- b. At least 90% of the account's total monthly peak demand relates to EV charging (i.e., the DCFC and any lower level, non-DCFC chargers); auxiliary loads (e.g., for vending machines, tire inflation or restrooms) do not exceed 10% of the total monthly peak demand.
- c. The account has a monthly peak demand that is equal to or greater than 50 kW but less than 5,000 kW.
- d. The account has or is expected to have a 12-month average load factor equal to or less than 20%, calculated according to the following formula:

$$Load\ Factor_{month} = \frac{Electricity\ Consumed\ (kWh)_{month}}{Maximum\ Demand(kW)_{month} \times Number\ of\ Hours_{month}}$$

- e. The charging station does not primarily serve commercial and/or public sector fleets.
- f. The total DER nameplate capacity of any DER connected behind the account's meter does not exceed the total annual peak demand of the charging station.

- I certify that the information provided on this form is true and accurate, and that in the event Lakeland Power has any questions about this information, I will provide true and accurate responses.
- I acknowledge that I am required to notify Lakeland Power within 30 days of ceasing to meet the eligibility requirements, upon which the account will be removed from the EVC Rate.
- I acknowledge that if Lakeland Power determines that I deliberately or recklessly provided false information on this form or in response to any of its questions about it, or that I deliberately or recklessly failed to notify Lakeland Power within 30 days of ceasing to meet the eligibility requirements, Lakeland Power will rebill the account for the difference between the EVC Rate that was charged and the RTSR that should have been charged.
- I have authority to sign this form on behalf of the account holder.
- By submitting this form, I acknowledge that any personal information contained on this form is collected by Lakeland Power in support of its obligations under the *Electricity Act*, 1998 and the *Ontario Energy Board Act*, 1998, applicable Ontario Energy Board codes and rules, associated policies, standards and procedures and its electricity distribution license. Use and disclosure of the personal information shall be governed by the *Municipal Freedom of Information and Protection of Privacy Act*.
